# STOCKS SHOW **BEAR PRESSURE**

Experience and the company of the contract of

Prices See-Saw in the Market with Amalgamated and Reading the Most Affected by Changes.

ERIE A FEATURE ON EXCELLENT SUPPORT.

New York Central, St. Paul and the Tractions Also Rank Well in the Dealings-Steel and Pacifics Down.

Profit-taking, combined with bear pressure kept prices see-sawing in the stock market to-day, the closing show ing the list mixed, but averaging algher. Trading was airly active.

The principal fluctuations were in Amalgamated Copper and Reading, they selling up almost 11-2 per cent. each and later reacting about 1-2.

The Eries were given good support throughout, they advancing from 5-8 to almost 2 per cent, under the lead of the second preferred.

St. Paul and New York Central were rominent in the trading at times at fractional gains. The Steel issues were under much

pressure and finished with losses. Southern and Union Pacific, Ontario and Western, Canadian Pacific and Louisville and Nashville showed pressure, they ruling slightly lower throughout the day.

The closing of the Tractions was higher. Bonds were about steady. The total sales of stocks The total sales of stocks were 638,700 chares, and of bonds \$4,286,000.

The Closing Quotations.

## **CONGRESS IN A ROW**

Secretary Wilson Defended in Hot Debate and Inquiry Resolution Tabled.

WASHINGTON, Jan. 8 .- When Congres convened to-day Mr. Wadsworth (N. Y.), chairman of the Committee on Agriculture, submitted a report upon the resolution requiring the Secretary of Agriculture to furnish certain information regarding cotton statistics, with the recommendation that as the estimates of the Department of Agriculture were found to be honestly and intelligently made, the resolution lies on the table.

Mr. Livingston (Ga.) demanded time to be heard in favor of the resolution, alleging that he had had no opportun-ity to speak in its favor before the committee. It finally was agreed that the subject should be discussed for two

# HAVEN DIRECTOR

His Purchase of Large Amount of Stock for Pennsylvania Said to Be Responsible, Though Control Is Officially Denied.

ROAD ALSO TAKES OVER STAMFORD ELECTRIC LINE.

Will Be Serious Blow to Proposed New York and Port Chester Road, Which Cannot Now Parallel to Boston.

Two important announcements were made to-day by the New York, New Ha- to sho ven and Hartford Railroad. One is the entrance of A. J. Cassatt into the directorate of the New Haven and the

Mr. Cassatt's going into the directorate was brought about by his purchase for the Pennsylvania of a large block of the treasury stock of the New Haven. It is officially decied that the purchase of the stock will permit the Pennsylvania to control the New Haven. The purchase of the New York-Stamthe proposed New York and Port Chester road, as it will seriously handicap the plan of that company to parallel the New Haven by an electric line to Bos-

Active Trolley Competitor. In addition to this, it will place the New Haven in a position to become an

active competitor inthe trolley business, and by the addition of a few miles of road will give to that company a through four-track electric line from One four hours not a delay or hitch of any Hundred and Twenty-ninth street, this city, to Port Chester.

The plan, it is said, is to turn the Harlem River Branch of the New Haven into a four-track electric line and connect it with the New York and

Chester in operation in a couple of years.

The price paid for the New York and Stamford was \$1,000,000. It was originally a horse car line from Lerchmont north and was turned into a trolley at slight bost. The men who are interested and who made many thousands are Col. W. N. Hefft, of Bridgeport: William L. Ward, of Port Chester: R. J. Walsh, of Greenwich, and Charles A. Singer, William Murray and William H. Campbell, of Larchmont.

The opening of the wheat market 200 C. M. & St. P.174% 173 1632 T 74 came fairly steady at parity despite occasional profit-taking. Union Pacific was built support, but July showed little dividend. The market closed dull. Russians were maintained on Continental repurchases. Imperial Japanese Government sixes of 1004 were quoted at 971-2. Kaffirs occasionally were sailer on Continental selling.

There are 252,436 miles of ocean cable in operation to-day, and only 38,797 miles are owned by governments. The British cables, which connect London with all parts of the world, have a total mileage of 154,099.

Mr. Dooley and Br. Dooley and spanking in next Sunday's World!

# **BIGGEST RECORD** IN THE SUBWAY

More than 400,000 Passengers Carried Yesterday, Which Exceeds by Several Thousands Previous Best Day's Business.

The biggest day in the history of the Subway was yesterday. With the surface car lines tied up with the storm and the elevated trains running behind schedule time, the people of New York flocked to the underground road in numbers never before equalled, and be-tween midnight of Tuesday night and last midnight nearly half a million passengers were carried in the trains of the Interborough Company. The complete figures have not yet been received at the offices of the company, but enough returns had come in at noon to-day to show that the total was way above

On one of the days following the opening of the Subway 330,000 persons passed OVER COTTON REPORT. the new York and Stamford Electric ing the holidays the daily traffic went as high as 395,000. But yesterday's total put all previous records to blush.

The increase was noticeable both on the express and local trains, but especially on the latter. Thousands of persons living but a short distance from their places of business and who are accustomed to travel on surface cars, finding their usual method of transportaford line, it is believed, will be the tien put out of commission by the most serious blow that has been dealt storm, took to the Subway, swelling the local traffic to enormous proportions.

An Extreme Test.

With the worst storm since the blizsard of 1888 raging, and an increase in traffic of nearly 100,000 passengers suddenly thrust upon it, the Subway system was put to an extreme test and was not found wanting. Of all the transportation lines in Greater New York it was the only one to run strictly up to its schedule. During the entire twentyconsequence was reported to General Manager Frank Hedley. It was the only route in town that a person could take and be certain of reaching his or her destination in comfort and on time. Except during the rush hours there was no over-crowding, in spite of the heavy traffic, and even then the underground trains were more comfortable to ride in than the elevated. While the snowfall of nine inches and the semigale put some of the street railways out of business entirely, caused vexatious delays on others and put kinks in the elevated schedule, the machinery of the Subway ran as smoothly as if the the Subway ran as smoothly as if the sun were shining overhead and not an inch of snow had fallen.

"After yesterday's experience," said Mr. Hedley this morning, "we are conwinted that nothing short of a flood can seriously interrupt the Sibway system. All our trains ran on schedule time, and the enormous increase in traffic was handled with ease. No storms, no matter how severe, can interfere with traffic in the underground, and we are always prepared to handle crowds in whatever numbers they come. Yesterday proved beyond all doubt the excellence of the system."

BEARS AGAIN SEND COTTON PRICES DOWN.

There was a return of bearish condilons in the cotton market to-day, prices breaking from 16 to 20 points at the start. A slump in Liverpool also contributed toward the weakness here, and it was said the English market was influenced by New Orleans and Continental selling. In addition to the heavy

ental selling. In addition to the heavy liquidation by the bears here houses with private wires sold freely.

The opening prices were: January, 6.70 to 6.80 February, 6.30 to 6.81; March, 6.87 to 6.82; April, 6.93 to 6.94; May, 6.99 to 7.00; June, 7.04 to 7.06; July, 7.09 to 7.10; August, 7.14 bid; September, 7.20 bid; October, 7.20 bid.

The late prices were: January, 6.71; March, 6.84; May, 6.97, July, 7.09; August, 7.15; October, 7.21.

### ODELL GUEST AT BIG HARMONY DINNER TO-NIGHT

Former Governor Will Atter,1 a Ranquet at Republican Club-

Famous Speakers Invited. Former Cov. Odell did not come to town to-day, as he had promised, and a number of members of the Legislature, as well as other Republicans who were prepared to meet the Chairman, had to be content with the receipt of word at noon that he would not leave Newburg until late this afternoon, thus enazling him to meet his colleagues in conference to-night.

It is learned that Chairman Odell will remain in the city for several days, during which conterences will be held British n the Fifth Avenue Hotel.

Chairman Odell will be one of the principal guests to-night at the Repubican Club dinner. There will be pres-

mittee, who was recently appointed J. 2-a of the Court of Claims.

It is significant that Barnes is to be one of the "beneficiaries.", He recently broke away from the Odell faction in the Debew-Black improxile and championed the cause of Senator Depew.

# Quality, Price @ Convenience

are the three things which every prudent housekeeper considers in the selection of her grocer. The JAMES BUTLER Grocery Stores combine the three to perfection. Quality first, last and all the time we must have. Our prices are obviously far lower than other retailers'. The enormous quantities in which we buy and sell enable us to keep prices down and always insure the freshest and purest foods. Our stores are conveniently located; you see them everywhere; for we have now 138 retail branches in Greater New York and its immediate vicinity. Courteous attention, accurate service and quick delivery are other appreciable features that we insist upon. The marvellous growth of our business and the steady flow of new customers prove that we please and satisfy our patrons.

This week we offer some exceptionally attractive prices and extra specials for Green Trading Stamp collectors with our popular TEAS, COFFEES, WINES and LIQUORS. We also continue with everything else, except C. O. D. groceries, the distribution to everybody of
